## OF MANY THINGS

(By Ambrose Hills)

### BIORHYTHM

Scientists tell us that our physical, mental and emotional states vary on a cyclical basis. The Swiss instrument people devised a computer when set to the birth date of a person, would then chart these cycles.

Industry, which is always quick to apply scientific findings, began to use these biorhythm computers for a variety of purposes. Some air lines charter the cycles of their pilots. By so doing, they could then avoid having on the same flight two pilots who were experiencing "critical" days.

Biorhythm Incorporated has now come to Canada and is located in Calgary, Alberta. They make it clear that biorhythmic charts will not tell your fortune nor produce any miracles of prophecy. They merely indicate critical days and the good periods when you are likely to be at your best. We are told that we are from 7 to 8 times more accident-prone on critical days, but that we are likely to be able to face difficult situations with relative ease on days when our cycles are high.

If this Swiss invention has the merit that many claim for it, the applications could be infinitely varied. For example, Kennedy and Khrushchev could plan to hold their important meetings only when both are go-

ing through cycles of high intellectual, physical and emotional ability — and avoid critical or low days like the plague!

## Hare -- Reid Warren -- Reid Double Wedding

Bethel United Church (Rawdon) was the setting for a lovely double wedding on Saturday, April 22nd, 1961, at 2.00 p.m., when Rev. W. G. Fletcher, united in marriage Lillian Jean Reid, of Toronto, daughter of Mr. and Mrs. Francis Reid, of Harold, Ont., to Mr. Brian Gilbert Hare, of Toronto, son of Mr. and Mrs. Wm. Hare, of Southampton, Ont., and Marian Iva Reid, daughter of Mr. and Mrs. Francis Reid, and Richard Allyn Warren, son of Mr. and Mrs. H. Walter Warren, Stirling, Ont.

Tall standards filled with white 'mums and red carnations and white baskets of white shasta 'mums and yellow and white snapdragons adorned the altar and front of the church and white satin bows marked the guest pews.

Mrs. Harry Morrow, Stirling, provided the wedding music and accompanied the soloist, her daughter, Miss Linda Anne Morrow, who sang "Today Oh Lord We At Thine Altar Stand" before the ceremony and "I'll Walk Beside You" and "The Lord's Prayer" during the signing of the register.

Given in marriage by their father the brides were similarly attired in ballerina length gowns of white silk chiffon over taffeta, with fitted bodices and full skirt being caught up with dainty white roses. They wore elbow length embroidered tulle veils with braided net halo edged with seed pearls and silk chiffon mitts. The brides carried cascade bouquets of red roses and white stephanotis.

Mr. Ivan Reid, Consecon, brother of the brides and Douglas Warren, of Stirling, brother of one bridegroom, acted as ushers.

The reception for around sixty guests was held at the home of the brides' parents, Mr. and Mrs. Reid, which was prettily decorated with pink and white streamers, white bells and white 'mums in silver rose bowls.

The brides' table was lovely in white damask cloth, three-tier wedding cake decorated with miniature bride and groom and crystal candleholders and tall white tapers on either side. The bridal flowers completed the lovely setting.

The guests were received by the brides' mother, Mrs. Reid, gowning in a deep mauve silk sheath with white hat and gloves and black suede pumps and wore a corsage of white roses. She was assisted by the groom's mother, Mrs. Warren, who wore a gown of green and white printed silk lace, green straw hat, white gloves and corsage of white roses.

For travelling the brides chose printed mauve and beige nylon dresses

over taffeta, beige top coats and accessories and corsages of white carnations.

Guests were present from Toronto, Scarboro, Ajax, Ennisville, Conse-

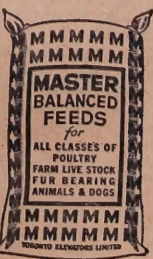

con, Trenton, Kingston, Harrow, Smith, Stirling and surrounding districts.

The brides were entertained previously to their marriage at showers and

presentations in Toronto by the Bell Telephone staff and Bank of Montreal staff, and also at the home of Mrs. Hugh Lyons at her cottage on the Trent River.

It is against all rules of etiquette to ask a lady to remove those shoes with the new fangled heels or should you keep mum and let them ruin your floors? I wish the guy who invented them would lie down so you could walk on him. Please ladies, be kind if you must wear them for style — take a pair of comfortable old slippers to replace them in a home. Your hostess will welcome you as a more welcome guest.

Don't feel too badly girls, men are offenders too when they sit back and grind those black heels or clips in the floor.

## The Food Basket

Consumer Section Marketing Service  
CANADA DEPARTMENT OF AGRICULTURE

### BUY BY GRADE — BUY BY QUALITY

So much of the money that home-makers spend goes into food, yet many women are not getting their awareness of the fact that many foods are sold in different qualities. For example, take a can of peaches — there are 3 different qualities or grades available. The top quality or Canada Fancy grade is the most perfect in flavour, uniformity of shape and colour. It is excellent to use as a dessert by itself or in a salad — but it would be extravagance to use these peaches in a cobbler or crisp when a less expensive quality, such as Canada Standard, would do. To be a quality food shopper, one must be aware of the grades. The grade or quality of a food is shown on the label of the container or on the product itself. To help you choose quality foods, the Consumer Section in Ottawa has listed the federal grade names of some of the most commonly used foods. Look for these grade marks when you're shopping. For more complete information write for the free publication 1043 "Buy By Grade" from the Information Division, Canada Department of Agriculture, Ottawa.

The grade names are listed in order of quality.

**Beef** — Canada Choice (Red Brand), Canada Good (Blue Brand), Canada Standard (Brown Brand), Canada Commercial.

The grade mark is included in the ribbon brand which runs the full length of a side of beef. It should appear on each retail cut.

**Butter** — Canada First Grade, Canada Second Grade, Canada Third Grade.

Most of the butter is Canada First Grade. All creamery butter in Canada is graded.

**Skim Milk Powder** — Canada First Grade.

All skim milk powder sold in retail stores is of the instant type. It is available in 1, 3, 5, 8, 10, 12 and 20 pound packages.

**Eggs** — Canada Grade A1, Canada Grade A.

These grades are sold in 5 sizes: Extra Large, Large, Medium, Small and Peewee size.

**Eggs** — Canada Grade B.

Not usually sold in retail stores but where available are suitable for cooking and baking.

**Apples** — Canada Extra Fancy, Canada Fancy, Canada Commercial or "C".

Canada Fancy grade is the most

readily available.

**Potatoes** — Canada Fancy, Canada No. 1, Canada No. 1 Large, Canada No. 2.

Canada No. 1 and Canada No. 1 Large are of similar quality. The difference between them is in size only. This grade is the most widely sold.

**Canned Fruits and Vegetables** — Canada Fancy, Canada Choice, Canada Standard.

Canada Fancy grades are suited for use where it is important that each serving coming from the can has similar colour, shape and size. Choice or Standard are used when these qualities are unimportant, for example, in casseroles, puddings, etc. All grades have equal food value.

**Canned Tomato and Apple Juices** — Canada Fancy grades are suited for most widely available.

**Frozen Fruits and Vegetables** — Canada Fancy, Canada Choice.

Frozen fruits and vegetables of Canada Fancy grade are as nearly perfect as possible.

**Honey** — No. 1, No. 2, No. 3.

Within each grade there are four colour classes — White, Golden, Amber and Dark. No. 1 White is the most readily available.

**Poultry** — Canada Grade Special (Purple), Canada Grade A (Red), Canada Grade B (Blue).

The grade mark appears on the breast of the bird and is placed on a metal tag, insert or on a transparent lithographed. A different colour is used to designate each grade.

## West Hastings Dist. W. Institute 60th Anniversary

(By Mrs. Percy MacMullen)

Approximately 160 ladies gathered at Wallbridge Orange Hall on April 20th to celebrate the 60th Anniversary of West Hastings District Women's Institute.

Twenty-seven ladies were honoured by the presentation of corsages of yellow roses with blue and silver ribbon.

The President, Mrs. E. B. Phillips, welcomed the large group and said that there were 195 members in the West Hastings District, of which 16 are life members.

### Cake Cutting Ceremony

The cake cutting ceremony followed, when four past presidents, under the direction of Mrs. Roy Bush, lit the candles and each spoke briefly. The others were Mrs. Louis Rodgers, Mrs. Harry Coulter and Mrs. Sam Nicholson. Four more past presidents, Mrs. W. C. West, Mrs. Casey Ketcheson, Mrs. Ken Paul and Mrs. E. B. Finkle, had the honour of extinguishing the glow when all the members sang "Happy Birthday." Mrs. Sam Lloyd, first president and a charter member, placed the silver knife tied with yellow streamers, in the cake. Two past secretaries, Mrs. Harold Phillips and Mrs. Perry Bronson, cut the cake, which was then served.

Mrs. Robert Burkitt was pianist.

### Guests at Head Table

The first branch Institute was organized at Wallbridge, thence the honour in being hostess for this anniversary. The president, Mrs. Phillips, was proud to be a member of this branch and introduced the head table as follows: Miss Julie Lane, Home Economist; Mrs. Roscoe Robson, Area Chairman; Mrs. L. G. Lymburner, F.W.I.O. President; Mrs. Sherman Foster, Board Director; Mrs. Harry

Coulter, Secretary-Treasurer; Mrs. Sam Lloyd, first President; Mrs. F. Treverton, honoured guest and charter member, and Mrs. Mary Vandervoort, first Provincial Board Director. History Given.

Mrs. Clarence Holmes gave the history of the district for the past 60 years.

The seven branches functioning at the present time are Wallbridge Institute, organized in 1901; Chatterton, in 1907; River Valley, in 1910; Uniondale, in 1920; Bay of Quinte, in 1921; and Stirling, in 1927, when they were transferred from North Hastings; Pine Grove in 1940; and Sidney Junction were organized in 1925 but disbanded in 1957. The Federated Board of Directors have been: Mrs. Mary Vandervoort, River Valley; Mrs. M. Shaw, Stirling; Mrs. Clarence Holmes, Bay of Quinte, and Mrs. George Burkitt, Uniondale.

Some of the achievements of the District were read.

The past has left its message, its inspiration and the future lies ahead. It is fraught with great possibilities, great opportunities and great problems. The historians left a challenge that West Hastings District with nearly 200 members must through intelligent study and practical action work to bring the best for home and country ever remembering the Institute Ode based on the good of all mankind.

Mrs. John Reid, Area Vice-President, conducted an impressive memorial service for all those departed sisters who laboured through the years. She placed seven white carnations in a silver basket and read an appropriate poem.

Mrs. George Heasman sang a vocal selection, "The Village Blacksmith," with her daughter Miss Grace Heasman as accompanist.

### Guest Speaker

Mrs. Sherman Foster introduced the guest speaker, Mrs. L. G. Lymburner, President of the Federated Women's Institutes of Ontario. Mrs. George Burkitt proposed a toast to the F.W.I.O. and spoke briefly on the work carried on at the Toronto board meetings and the leadership given.

Mrs. Lymburner first introduced Mrs. E. V. Thompson, Conference and Holiday Secretary, who has been recently appointed as Public Relations for the F.W.I.O.

The subject of her address was "Women Who Have Left Their Mark on the History of the World." She gave a descriptive account of several well-known personalities who have contributed throughout the years and this included Judge Emily Murphy and her outstanding contribution to the work of the W.I.

### National Convention

She stated that the National Convention which will be held in Vancouver in June should be an incentive to study the organization as it affects each province. Mrs. Lymburner explained "Pennies for Friendship" and stated that it is hoped to have a sizeable cheque to take on behalf of the F.W.I.O. to the next triennial. In Edinburgh the project "Eat To Live" was most prominent on the program. Women should know of Canada's abundance and they should also know how to use it. The conveners of Home Economics and Health are asked to study this phase of the work this year.

At the request of the UN the UNESCO project was instituted and F.W.I.O. is grateful to the branches who assisted with coupons. The Women's Institute is a rural university and it is not a fund raising organization and it is always well to remember one's own work first. Many ideas have been developed to show Institute members how and when they can become better citizens. Canada will commemorate her centennial in 1967 and the citizenship convener of F.W.I.O. has prepared material suitable for use by the citizenship and education branch conveners.

### Challenge To The Future

Mrs. Lymburner's closing thought was a challenge to face the future with courage and faith and to try to promote the ideas suggested by F.W.I.O. for when country women work together for the common good, much can be accomplished.

Following the address Mrs. Morley Sine expressed appreciation to the President for her gracious and informative message.

Mrs. Milton Grills and Mrs. Robert Burkitt led in assembly singing of old favourites, one of which was a parody on West Hastings W.I. to the tune of The Old Grey Mare.

Miss Julie Lane, Home Economist of Hastings County, outlined the work of the Home Extension Services down through the years and said the position of homemaker calls for the best training possible. If you educate a girl then you educate a family. She voiced congratulations to West Hastings and wished for them continued success.

Mrs. Roscoe Robson, Chairman of

## Vehicle Check Drivers Duty

"Only one person in all the world can prevent a traffic accident", claims the Canadian Highway Safety Council.

"You!"

Contrary to some popular belief, it is not the "other fellow" who is at fault when a highway accident occurs. Some individual is responsible, some one person who either did what he should not do, or did not do something he should. This, the Council declares, pertains to discovering and correcting unsafe vehicles and parts.

"Particularly after a winter of hard driving, every driver should have his vehicle carefully and thoroughly inspected and worn parts replaced. He should be sure his car is in safe condition for spring and summer driving ahead."

"The Council, through its Vehicle Safety Committee, annually sponsors the May-long drive to promote car-check and vehicle safety. Its slogan this year will be "Safety is in your hands."

Pulp and paper accounts for almost a third of Canada's trade with the United States.

## Prime Minister Welcomed World Travellers

Climaxing four weeks of touring major industries in U.S.A. and Canada, 25 industrial leaders from 17 different countries of the world, visited Ottawa on April 28th. Led by Thomas J. Bata, Canadian head of the multi-million dollar world wide Bata Shoe-making enterprise (the largest in the world) and Dr. C. K. Herz, Vice-President and Managing Director of the Canadian operations, the group was officially welcomed in Ottawa by Mr. Lee Grills, M.P. for South Hastings.

In a fast moving schedule they were taken to the House of Commons where they were personally greeted by Rt. Hon. John Diefenbaker, Prime Minister of Canada; Hon. Geo. Hees, Minister of Trade and Commerce; Hon. Mike Starr, Minister of Labour. They toured the House of Commons, the Senate Chamber and were guests at a luncheon at the Rideau Club along with officials of the Department of Trade and Commerce. In a conference with officials of the Department of Trade and Commerce they studied measures by which each country could be of mutual interest to the other in sharing its technical industrial knowledge.

Speaking briefly concerning the visitors, Mr. Lee Grills, who is proud that the Canadian plant and head office of the organization is in his riding said, "These brilliant industrialists are volunteer ambassadors of goodwill for the nations they represent and we are proud to have them in Canada." Included in the party were men from North Africa, Pakistan, India, Kenya, Sudan, Indonesia, Egypt, Peru, Belgium, New Zealand, England, Jamaica, France. Also in the party were several Canadian col-

leagues of the vast shoemaking empire which employs more than 57,000 people and has an annual production of 135 million pairs of shoes produced and sold all over the world.

## If You Dislike Dogs -- Read This

To those persons who put through legislation in regard to dogs, The Border Cities Star respectfully submits the following:

One of the most famous speeches ever made by the late Senator G. G. Vest, of Missouri, was made in the course of the trial of a man who had wantonly shot a dog belonging to a neighbour. Vest represented the plaintiff, who demanded \$200 damages. When Vest finished speaking, the jury, after two minutes' deliberation, awarded the plaintiff \$500. The full text of the speech is printed below:

"Gentlemen of the Jury: — The best friend a man has in this world may turn against him and become his enemy. His son or daughter that he has reared with loving care may prove ungrateful. Those who are nearest and dearest to us, those whom we trust with our happiness and our good name, may become traitors to their faith. The money that a man has he may lose. It flies away from him, perhaps when he needs it most. A man's reputation may be sacrificed in a moment of ill-considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when failure settles its cloud upon our heads. The one absolutely unselfish friend that man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous, is his dog.

"Gentlemen of the Jury, a man's dog stands by him in prosperity and in poverty, in health and in sickness.

He will sleep on the cold ground, where the wintry winds blow and the snow drives fiercely, if only he may be near his master's side. He will kiss the hand that has no food to offer, he will lick the wounds and sores that come in encounter with the roughness of the world. He guards the sleep of his pauper master as if he were a prince. When all other friends desert he remains. When riches take wings and reputation falls to pieces he is as constant in his love as the sun in its journey through the heavens. If fortune drives the master forth an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him to guard against danger, to fight against his enemies, and when the last scene of all comes and death takes the master in its embrace and his body is laid away in the cold ground, no matter if all other friends pursue their way, there by his graveside will the noble dog be found, his head between his paws, his eyes sad but open, in alert watchfulness, faithful and true even to death."

## Eggleton Mission Band

The April meeting of Eggleton Mission Band was held last Friday afternoon at the school.

Dianne Prest presided over a programme prepared by Beverley Stapley and Lois Danford, and opened the meeting in the usual form. The Scripture Lesson, Psalm 24, was read by Sheila Clarke and this was followed by a reading "I'll Tell You A Story I Heard," given by Dianne Prest.

During the business period Sheila Clarke and Carol White were appointed to prepare the programme for the May meeting and Wayne McMullen and Kenneth Danford to bring lunch.

The Easter thankoffering envelopes were gathered by Mary Jones and dedicated with a Litany Prayer with Beverley Stapley as leader. The World Friends papers were distributed by Lin Stapley, Terry Kovach and Billy Stapley. A reading "Tyro Truths" was contributed by Mary Jones.

The leader, Mrs. Clancy, told of the special object of the Mission Band, explaining about the World Council of Christian Education who has as a main purpose the strengthening of the fundamental teaching work of the churches. W.C.C.E.S.S.A. is helping missionaries and christian leaders in Africa, India and in the Caribbean to plan their own series of Sunday School lessons.

Mrs. Clancy also gave the chapter from the study book telling the story about "Ameera," a little girl belonging to a Syrian Nomad tribe. She learned to read her Bible and also shared what she had learned with others.

The meeting closed with a prayer read by Carol White. Lunch of dainty cookies was then served by Carol Stapley and Mary Jones.

The members who are taking part in a play "Jean Crowfoot Takes A Part" then had a short practice period.

## Do You Remember?

When women wore hoop skirts, bustles, petticoats, corsets, cotton stockings, buttoned shoes, frilled cotton drawers; they did the cleaning, washing, ironing, raising of big families, went to church on Sundays and were too busy to be sick.

Men wore whiskers, plug hats, ascot ties, red flannel underwear, chopped wood, bathed once a week, drank 5c whiskey, 5c for a schooner of beer, rode wagons and buggies, went in for politics, worked 12 hours a day and lived to a ripe old age.

Stores burned oil lamps, carried everything from a needle to a plow, trusted everybody, never took inventory, placed orders for goods a year in advance, and Always Made Money. This was all way back in 1848, but times and customs have changed materially in the last hundred years. If you don't think so read the next column.

Women wear now silk stockings, no corsets, an ounce of underwear, smoke, paint, powder, drink cocktails, play bridge, drive cars, have pet dogs and go in for politics.

Men have high blood pressure, wear no hats, have little hair, shave their whiskers, play golf, bathe twice a day, never go to bed the same day they get up, are misunderstood at home, play the stock market, ride in aeroplanes, drink poison, work five hours a day, play ten, and die young.

Stores have electric lights, cash registers and elevators but never have what the customer wants; trust nobody, take inventory daily, never buy in advance, have overhead, mark-ups, mark-downs, quota budget, advertising, stock control, annual and semi-annual sales, end of the month sales, anniversary sales, dollar days, found-

er's days, rummage sales, economy days and Never Make Money. — Canada Lumberman.

Enough new jobs could be created for another city about the size of Barrie, Ont. (20,000) if Canadians bought only Canadian-made electric appliances.

## Timely Tips

Grow grass near poultry houses for summer coolness, suggests John Walker, poultry scientist at the O.A.C. Seed as soon as you can in the spring. Short green grass maintained on the south, east and west side of chicken houses prevents reflected sunlight from heating the house. Many poultry houses are located where grading was necessary and the bare or patched-with-weeds ground really reflects the sun's rays.

Going hunting this spring? Take your boy along and teach him the art of gun safety. Some just-released figures by the Department of Lands and Forests show that of the persons causing the accidents, 10 percent were under the age of 15 years and had no gun license or training in the use of a gun.

Professor A. C. Robertson of the O.A.C. Economics Department suggests you keep these 5 points in mind if you want your father-son arrangement to work: Net income must be large enough for 2 families; adequate and/or separate housing; willingness to co-operate; adequate records kept with a mutual understanding on the part of both; and provision for the son to increase his capital every year. If you follow these points, Robertson says your father-son arrangement will have a good chance of surviving.

## Ivanhoe

(Too late for last week)

Mr. and Mrs. Stanley Prest, Mrs. Wm. Shaw spent Thursday with Mr. and Mrs. Percy Rollins, Belleville.

Mr. P. M. Wood, who has spent the winter months in St. Petersburg, Florida, returned home on Monday.

Mrs. A. Wood returned home on Monday from a two weeks' visit in Tupperville and Toronto.

Mr. and Mrs. Earl Benson and Mr. and Mrs. Harry Benson and Patsy attended the funeral of Mrs. Nettie Wagar held in Fenelon Falls on Monday.

Mrs. George Wood, Jack and Judy, Brenda Taylor and B. M. Fleming spent Saturday in Kingston.

Miss Margaret Wright is a patient in the General Hospital, Belleville.

## World Mission

On Friday evening St. Andrew's Presbyterian Church, West Huntingdon, was privileged to hear the Rev. George Malcolm, Missionary to Formosa.

The guest speaker held the interest of all present as he told of the work in Formosa and the share the home churches have in this rewarding work.

A number of articles brought from Formosa were displayed; also books. A discussion was held and lunch was served.

On Sunday afternoon the Rev. J. Jacenty, of Oshawa, a native of Western Ukraine, was the guest speaker. The service was conducted by the pastor, Rev. K. J. Rooney. During the service Mrs. M. Shaw, Mrs. Wm. Donnan and Mrs. Lindsay Sills sang "The Grand Old Story."

## Late Mrs. Nettie Wagar

Mrs. Nettie Wagar passed away in Bobcaygeon General Hospital on Saturday, April 22nd, following a week's

illness. She had been in failing health for a number of years.

She was the daughter of the late Mr. and Mrs. James Benson of Ivanhoe, and the last of a family of ten.

Predeceased by her husband Wesley Wagar in 1947, she is survived by a daughter, Minnie.

She was in her 78th year and had lived in the Fenelon Falls area for 42 years. Previously she lived at Ivanhoe, where Mr. and Mrs. Harry Benson now reside.

Mrs. Wagar was a member of the United Church at Powle's Corners and later transferred to Fenelon Falls United Church.

The funeral was held on Monday afternoon from the Patten Funeral Home, Fenelon Falls. Rev. M. C. Fisher officiated. Interment was made at Fenelon Falls Cemetery.

The pallbearers were five nephews, Harry Benson, Clinton Benson, Fred Benson, Earl Benson and Ira Fell.

Mrs. Wagar spent her early life in this community. She was a faithful attendant of Beulah United Church, a member of the Sunday School and Choir. She was the first secretary of Ivanhoe Women's Institute.

The sympathy of this community is extended to her daughter, Minnie.

## Wellman's W.M.S.

The May meeting of the Woman's Missionary Society of Wellman's United Church was held at the home of Mrs. Douglas Clancy with twenty adults and 3 children in attendance. The President, Mrs. Omar Dracup,

was in charge of the meeting with the topic under discussion being "Missions." The hymn "Praise Ye the Lord" was sung, followed by prayer by Mrs. Jack Dunham.

Mrs. Dracup commented briefly on the topic. Mrs. Byron Seely read John 3: 16-21 and Mrs. Keith Clancy Ephesians 4: 1-7. The hymn "Let Us Sing of a Wonderful Love" was sung.

Mrs. Clifford Clancy and Mrs. John Carlisle gave a short description of their visit to the meeting held recently at Foxboro, discussing the uniting of the church societies.

The minutes read by Mrs. Clifford Clancy were approved. The offering was taken and dedicated by Mrs. Dracup.

Mrs. Akins gave a reading, "Yesterday and Today." Mrs. Frederick Beckett and Mrs. Clifford Clancy sang a duet, entitled "My Mother's Prayers Have Followed Me." Mrs. Gerald Clancy favoured with a piano solo, "Jesus Saves."

Mrs. John Carlisle was in charge of the study book. It was centered around work camps, showing the results of people working together, proving the thought that work makes us one.

Mrs. Jack Dunham gave a report on the work camps in the Netherlands. Mrs. Frederick Beckett discussed those in New Zealand. Mrs. Gerald Clancy spoke on the English camps and Mrs. Clifford Clancy on those in South East Asia. Mrs. Carlisle gave a talk on the local attitude to mission work, bringing out the fact of how much better it would be if the entire population of the world could be looked on as the "Whole Human Family."

Mrs. Dracup thanked everyone taking part in the meeting, also the hostess for her hospitality. She then closed with benediction.

Mrs. Kenneth Tompkins put on a contest of jumbled Biblical names, after which delicious refreshments were served and all enjoyed a social half hour.

In 1917 an explosion resulting from a collision of a munitions laden ship destroyed two square miles of the City of Halifax, killing 1,800 and injuring 4,000 people.

## C-O-N-F-U-S-I-O-N

While gradually becoming enlightened, too large a portion of the poorly informed public remain uncertain concerning VISION care and medical EYE care.

Factually, these two of the general Health services are quite different fields, both separately essential to human welfare. Indeed that of Optometry is less related to medicine than that of Dentistry.

He said it was the first birth of its kind he had heard of in Canada and may be the first in the world.

#### DAFFODIL TIME

Among the loveliest of our Spring flowers is the sunny and dainty daffodil. The flower has a counterpart in a cake — Daffodil Cake. This is a light, fat-free, white and yellow sponge-type cake easy to make and pretty as a picture. You will want to serve this cake at a bridal shower or a tea. It would be a lovely dessert to take over to Mother's on her special day. It is also a cake worth baking and freezing while eggs are plentiful and low in price for it is delicious with summer fruits and berries.

Some people have difficulty getting a Sponge Cake to turn out successfully because they under or over-bake the egg whites. In this recipe for Daffodil Cake, tested by the Consumer Section, Canada Department of Agriculture, Ottawa, directions say specifically that the whites should be beaten stiff but not dry. That means,

the egg white should be beaten until they stand in glossy peaks which just hold their shape when the beater is lifted. The cream of tartar is added to strengthen the egg whites so that they stand up well during baking. The sugar in turn, is added to form a meringue and this makes it easier to fold in the other ingredients without loss of air from the beaten whites. As egg white at room temperature beat to a larger volume than cold ones, it is a good idea to take eggs from the refrigerator about an hour before using.

#### Daffodil Cake

- 7 egg whites (one cup)
- 1 teaspoon cream of tartar
- 1/2 teaspoon salt
- 1/2 cup white sugar
- 1 cup sifted pastry flour, divided in two
- 1/2 cup white sugar, divided in two
- 4 egg yolks
- 1/2 teaspoon vanilla

1 teaspoon almond extract

Beat egg whites with cream of tartar and salt until stiff but not dry. Gradually beat in 1/2 cup sugar. Divide meringue mixture into two equal parts. Into each part, gradually fold 1/2 cup of the flour and 1/2 cup of the sugar sifted together. Into one, fold the well-beaten egg yolks and vanilla. To the other, add almond extract. Spoon batters into an ungreased 9" tube pan, alternating a spoonful of the white with a spoonful of the yellow. Bake in a moderately slow oven (325 degs. F.) until surface springs back when pressed lightly — about 1 hour. Immediately turn cake upside down and leave until cold. Remove from pan, and cover with a lemon icing.

#### OF MANY THINGS

(By Ambrose Hills)

##### THE EICHMANN TRIAL

Last night my wife and I watched 18 minutes of the Eichmann trial shown on TV. The program was late at night so that the children would not see it. It was so shocking to us that neither of us could get to sleep. How could it happen? It seemed

so brutal beyond all belief — those terrible things done in the name of a Final Solution to the Jewish Problem.

We stared at Eichmann, seated in his glass cage, a little, inconsequential-looking man, charged with the mass murder of millions.

How could he sit there and listen, without fainting away or going mad? How could he excuse himself on the grounds that his government had ordered him to conduct this awful thing?

In all the disgusting odor of it, there was only one comforting thought. It could only happen under a system where men like Eichmann become the robots of a totalitarian regime. It could not happen where men are free and value their freedom. Such treachery couldn't be bought by wealth or influence even from Capone-type goon squads; it is available only to all-powerful governments with every aspect of society in their command to bend to their compulsive will.

It is true that our system of limited government may not be perfect. It is true that men left relatively free may make mistakes, and some incongruities are certain. But in a free system, with government limited to

governing, no group can get the power necessary to conduct such a dastardly terror as that which took place under Hitler with such deadly efficiency.

Left free, we may spend too much time on gadgets, and here and there some wealthy tycoon may buy milk dog collars or diamond-studded yachts — although I've never met the like. But I'll put up with some of that nonsense in preference to placing in the hands of any group complete control of our entire society.

I'll take freedom — spiritual and economic freedom — and gladly accept the responsibilities that go with it, rather than give up to any government, however benign and generous and helpful it may promise to be. I believe every Canadian, when offered some new government measure, should always ask this vital question: "How much freedom must I give up in return for this government gift?"

## NEWS FOR THE BUSY FARMER

### WEEDS IN GRAIN FIELDS

Ragweed was the most common weed found in 1960 in a survey of 77 grain fields in central and eastern Ontario, according to J. F. Alex of the Canada Department of Agriculture's Plant Research Institute in Ottawa.

More than 75 species of weeds were identified in the survey, ranging from eight to 38 species in a single field. Ragweed, associated with hay fever, was present in every field of winter wheat and in 90 percent of the oat fields examined in Ontario Country, and in nearly every one of these fields it was the most abundant weed.

Lamb's-quarters, red-root pigweed, wild buckwheat, black medick and lady's-thumb were well represented in most fields. Shepherd's purse, sandwort chickweed, common plantain, mouse-ear chickweed, Canada thistle, curled dock, night-flowering catchfly and field dandelion, were thinly represented in most fields. Couch grass, field horsetail, wild mustard, old which grass, yellow foxtail, green foxtail, sow thistle and field bindweed

were abundant in a few fields and many other weeds occurred sporadically.

Weeds such as small-seeded false flax and black medick, which germinate in the fall, were more frequent in winter wheat than in oats or barley. Others, such as red-root pigweed, which germinate after the soil becomes warm in early summer, were common in oats but rare in fall-seeded crops, which keep the soil shaded and cool.

### FURROW AND FALLOW

(by Fairbairn)

Ontario milk producers are in the midst of heated discussions, in some cases, about whether they should embark on an overall milk marketing plan in the province. There is no plan yet but the Milk Producers Co-ordinating Board has approved 12 principles that it feels should be basic in any proposed plan. Most of these were included in a report by three outside economists but the board has added some ideas of its own and sub-

mitted the 12 principles to the four dairy groups — whole milk, concentrated, cream and cheese.

We understand that the last three have approved the principles with some very minor changes but the whole milk league is holding meetings across the province to determine the reaction of its members. Since one of the basic principles involves the freeing of fluid milk quotas there is bound to be some objection from whole milk shippers.

However, the co-ordinating board has suggested quotas up to the previous year's sales levels before freezing so that shippers whose quotas are substantially lower than their top price sales (that includes most of them) will not be penalized. By freezing quotas, it is hoped to raise funds for an equalization fund as consumption increases because of the normal population growth. As more fluid milk is sold, distributors will, as they do now, pay top price for it but the producer will get secondary price for all milk sold above his frozen quota. The difference goes into the equalization fund.

Other basic principles include formation of a central agency which would have authority to direct all milk sold in the province, classification of milk and producers, study of the pricing system (solid-not-fat basis or something other than butterfat) and quality control. Quality standards are going to be higher — in our opinion — whether an overall marketing plan becomes a reality or not. This means greater attention by producers to general cleanliness and sanitation, emphasis on the prevention of mastitis and increased use of filters to mention only a few things.

### Timely Tips

Studies show that from 70 to 90% of the bruises seen after broilers have been dressed are less than 14 hours old. This means most of the loss was caused during catching. Prof. John Walker of the O.A.C. Poultry Department suggests you remove as much equipment from the pen as possible before you catch the birds. Catching birds at night with the aid of blue lights helps reduce bruising. Pen off 200 to 300 birds at a time, carry birds by the shank only, lift and place birds into the coop gently. And don't throw

coops containing birds onto the truck. Walker says scientists are working on a sodium pentobarbital drug which will knock out birds before they are caught.

Farmers are using spray tanks made of mild steel, stainless steel, aluminum, and plastic reinforced with fibre glass. Most people are using mild steel tanks such as oil drums. These will often become rusty and scaly inside after 1 year's use, says O.A.C. crops man, Dr. Stan Young. Trash in tanks cause at least three-quarters of stoppages. Start each spring with a rust-free tank and use water that is free of trash.

Ewes can't produce good lambs on nothing but late-cut timothy hay. Dr. Bill Mitchell of the Ontario Veterinary College reports that some farmers have been running into small lamb crops and weak lambs because of this practice. If you must feed an all-grass hay, cut it before it heads out. Better still, plan now to seed or save part of your grass-legume hay crop for feeding your ewes next winter. Another point: High protein hays need less grain supplement.

A tasty topping for pancakes is a small scoop of cottage cheese garnished with a favourite jelly.

### Rawdon Jr. Farmers

The monthly meeting of Rawdon Junior Farmers was held on May 1st. Thirty-two members have joined Rawdon Junior Farmers, making the total membership 60.

The girls met in the Agricultural Office. Elsie Martin introduced the speaker, Miss Julia Lane, Home Economist for Hastings and Lennox and Addington Counties. Miss Lane took as her topic "Design" and told many interesting facts about design. Pat Merrill thanked Miss Lane on behalf of the girls.

The boys met at the Masonic Hall. Peter Heasman introduced the speaker, Mr. Roy Silks, who addressed the boys on "Hog Marketing." Joe Hagerman thanked the guest speaker.

### Joint Meeting

The girls then adjourned to the Masonic Hall for a joint meeting with the boys. Elsie Martin took charge of the meeting. Roll call was "Pointers received from the guest speakers." The Plowing Match and the Farmstead Improvement Competition were discussed. Mr. Sid MacDonald, Agricultural Representative, gave information regarding the latter.

Letters were read from Sidney and Thurlow Junior Farmers inviting the local club to their next meeting.

Captains were chosen for the ball

teams. Roger Smith was elected captain for the boys with Pete Heasman as assistant and Carol Hockett captain for the girls with Ruth Morgan as assistant.

A sing-song was led by Glen Hagerman. The "Rawdon Tattler" was given by Donna Geen and Bob Stiles. Recreation was enjoyed, followed by lunch.

### Cooking Comments

An excellent way of serving milk to children and adults who do not drink as much as they should, is in the form of milk puddings. To pep up vanilla and chocolate puddings, the Food and Nutrition Department of Macdonald Institute, Guelph, suggests that peppermint candies be added during cooking. Also if chocolate bits are stirred into warm vanilla pudding, they will melt in attractive streaks.

Use pipe cleaners to fasten the tops of plastic bags. They keep bags tightly closed and are easier to use than rubber bands or clips.

After the maraschino cherries have been removed from the bottle, add shredded coconut to the juice. This will provide a ready supply of pink or green coconut for cake decorating.

### PREVENT 'STAPH' MASTITIS WITH CYANAMID'S NEW TOXOID

The development of Cyanamid's new Slanetz No. 7 'Staph' Toxoid is a great step forward in the battle against Mastitis.

Vaccination with 'Staph' Toxoid immunizes your herd against 'Staph' mastitis, one of the most prevalent and dreaded forms of the disease.

Vaccination costs you no more than treatment, but saves you milk and worry.

Ask your Veterinarian to vaccinate your herd with Cyanamid's 'Staph' Toxoid. Have him set up a regular testing program and depend on him for guidance. He will recommend other proven Cyanamid products, such as Polyotic, Targot, and Aureomycin Mastitis products.

'Staph' mastitis can be prevented. Ask your Veterinarian for Cyanamid's new Slanetz No. 7 'Staph' Toxoid.

### Fireworks Display Monday Night

Final Plans For Big Event  
Now Complete — Junior  
Band Will Be Present

Plans for the Legion's Monster Fireworks Display at Stirling Fair Grounds next Monday, May 22nd, are almost complete. A large crowd of children and adults from Stirling and district is expected to be on hand to enjoy an evening of fun and excitement.

Stirling Legion, who sponsor the annual event, have conducted a canvass for funds which has met with good public support, but the Legion are still short of their financial objective.

All persons who donate to the Fireworks Fund receive a yellow ticket receipt which permits them to park on the grounds under Legion supervision. A charge of \$1.00 per car will be made for all those who do not have a receipt ticket. Persons still wishing to make a donation may leave same at Noble's Drug Store or Bob Patterson's.

The Stirling-Rawdon District High School Band will get the evening off to a musical start at 8 p.m. The band, under the direction of Mr. Maurice Bell, has proven itself to be an accomplished musical organization and its performance will add much to the occasion.

The Legion will also conduct a draw for three attractive prizes which include an outdoor barbecue, a spinning rod and reel and a floor polisher. Tickets may be purchased from any Legion member.

The local Guides and Scouts will also provide refreshment services throughout the evening.

To climax the evening a monster fireworks display will commence as soon as possible after dark. The fireworks show has been expanded this year and promises to be one of the finest in Eastern Ontario. Should rain interfere, the show will be postponed to Wednesday, May 24th.

Legion members will supervise parking of all cars in an orderly manner so that everyone may enjoy the show. The co-operation of all motorists is again requested. The Legion wish also to caution parents and children with regard to the fireworks. The great part of the fireworks show is made up of aerial bombs which contain explosives of a powerful nature. All persons not directly concerned with the firing of the bombs should remain clear of the firing area at all times.

The show has been planned for the enjoyment and safety of everyone. With the co-operation of motorists, parents and children it is hoped that the event will be enjoyed by everyone.

Stirling Public  
School Expresses  
Gratitude

For the past six years the Stirling Public School has won the Stirling News-Argus Trophy for choir singing at the Festival of Sacred Praise.

This Public School Choir has been under the very capable leadership of Mrs. Craig Watson for five of these six years. This is proof enough to us that Mrs. Watson ranks among the best. She has given willingly of her time and talent so that no one lacks the attention needed. We, the students, are very proud to have her as our music teacher and feel that every time she comes, we are getting an excellent music lesson free.

We are also indebted to our own Mrs. Heath who has always assisted Mrs. Watson and the choir. Her interest and devotion to the school is foremost in her mind. The co-operation and assistance of Mrs. Rodgers and Mrs. Sills are also appreciated by us.

In all, we owe a great deal to the teachers whose efforts sometimes go unnoticed. Through the medium of the newspaper we would like them and the Village to know that we appreciate them.

## OF MANY THINGS

(By Ambrose Hills)  
WORLD OF TOMORROW  
Back in 1939, the World's Fair dis-

played "Tools for Tomorrow," and many visitors thought them all so startling they wouldn't really arrive. Yet the committee which is now at work preparing the next world's fair says that 85 percent of the tools that were so startling 23 years ago were used and improved and are already obsolete. Things are changing very quickly indeed.

The other day a Russian went into orbit. Yet society exists, in England, which claims the earth is flat! Resistance to change seems to be the only permanence.

Every time I hear a man holding forth like an expert, I recall the hundreds of "experts" before him who held forth just as persuasively but who turned out to be quite wrong when more was learned.

It seems the more we learn the less we know, because each new intellectual beachhead gained presents a whole new assortment of problems and new fields of disturbing ignorance. Former President Eisenhower's brother Milton put it clearly when he said, "Every question answered exposes a hundred mysteries to be investigated."

The president of Albion College, in Michigan, recently warned a graduating class about how partial their knowledge must be. "Your greatest enemy henceforth," he said, "will be triviality, the easy assumption that the partial knowledge you possess can represent the whole truth."

Sounds discouraging, doesn't it? A bit hard to take for writers like me who do so much preaching in such an opinionated way?

I don't think for a minute that we should throw up our hands — or our ideas — in despair. It seems to me that we must speak from our convictions, from our partial knowledge, knowing all the while how vast is our ignorance.

Above all, I am sure we should try to see to it that the door is never closed against the new and different idea. We should avoid imposing, by compulsion, our ignorance on others who see things in a different light. While lighting what feeble candles we can, we should do nothing to stop others from lighting bigger and better candles of their own. We must always struggle against blinkers, against any who would set themselves up as oracles claiming the one and only solution of all problems.

#### BEEF STEAKS FOR THE BARBECUE

In Queen Anne's time, great men of England noted for their wit and joviality, formed the famed old Beef Steak Clubs and wore a small golden gridiron for a badge. Today their Canadian contemporaries have their gridirons mounted on mother earth in their own backyards. Their badge has become a big chef's apron which they wear in grand style while cooking the beef steaks over the coals and they seem to have no less fun than did the jovial men of merry old England. As Victoria Day usually signals the unofficial start of the outdoor cooking season, the Consumer Section, Canada Department of Agriculture, Ottawa, outlines a few pointers for the happy breed of beef eaters on how to buy steak.

Large beef steaks for several servings — Allow  $\frac{1}{2}$  to 1 pound per person.

Porterhouse Steak is the choicest of the large steaks. It contains a T-shape bone and a large portion of the round tenderloin or "undercut" as some people call it. A good cut for cooking over the coals is at least 1½ inches in thickness.

Sirloin Steak is tender and well flavoured. The sirloins are named for the shape of their bone — round bone, wedge bone, double bone and pin bone. The round and wedge bone sirloins have the highest proportion of lean meat. Double and pin bone sirloin have a larger proportion of bone and give fewer servings. A cut at least 1½ inches thick is preferable for barbecuing.

Top Round Steak is a less tender steak than sirloin but a top quality cut with some marbling of fat throughout the lean and is suited to longer, slower cooking on the outdoor grill. Some people prefer to marinate, or to score top round steak prior to cooking to make it more tender. A cut  $\frac{1}{2}$  to 1 inch thick is best for this steak.

Small Steaks — Allow one steak per person.

Tenderloin Steak is a round, bone-

less and very tender steak cut from the porterhouse. It is commonly known as a fillet or fillet mignon, (pronounce: fill-lay meannon). It is the choicest and most expensive of the small steaks.

T-Bone Steak contains the T-bone and a small portion of the tenderloin.

Club or Wing Steak is the smallest steak. It is triangular shaped and edged on one side with a rib bone. It contains very little, if any, tenderloin.

These three steaks should be cut at least 1½ inches thick for barbecuing. This thickness prevents the steak from drying out while cooking.

#### From One Backyard To Another

— Frozen steaks should be thawed before cooking over the coals.

— Fat should be trimmed from outer edge of steak to prevent blazing or flaring of fire. Grill should be high enough so that flare up does not char meat and water should be on hand to sprinkle blaze.

— Use trimmings to rub over grill and prevent meat from sticking.

— Score edges of steak so that it will remain flat while cooking.

— Turn steak with tongs. A fork makes a hole in meat through which juices escape.

For those of you who like to brush your steak with a sauce while it cooks here is a tested recipe from the Consumer Section in Ottawa.

#### Barbecue Sauce For Meat

- 2 tablespoons brown sugar
- 1½ teaspoons dry mustard
- 1 to 2 teaspoon chili powder
- 1 teaspoon salt
- ½ teaspoon pepper
- 1½ tablespoons spicy meat sauce
- 3 tablespoons vinegar
- 2 cup finely chopped onion
- 3 cups tomato juice

Mix brown sugar and seasonings.

Add remaining ingredients and mix.

Simmer until thick, about 30 minutes.

Makes 3 cups. Use with beef, lamb,

minced meat patties, spareribs, etc.

Women were extended the right to

vote in Federal elections in 1917.

#### Timely Tips

Square egg gathering baskets are something you might think about. The OAC Poultry Department uses them and Professor John Walker believes they have quite a few advantages. The filler flats that are placed in the basket prevent many cracks and allow the eggs to cool rapidly. Plastic flats are available so the eggs can be washed right in the basket and no double handling will be necessary. Main disadvantage: clumsy to handle until you get used to them and

the baskets won't fit round egg washers.

Tractors are now being used to the limit to get the spring weeding done on time. If you have to hurry, don't neglect safety, says Hal Wright, safety specialist with the Ontario Department of Agriculture. He stresses: let a child take a man's place on a tractor; call a neighbour or use your second tractor to help you out of wet spots.

## Whiteman — King Nuptials At St. Paul's

A lovely double ring wedding was solemnized on Saturday, May 6th at 2 p.m. in St. Paul's United Church, Stirling, when Rev. P. J. Hommersen, united in marriage Yvonne Irma King, daughter of Mr. and Mrs. Lloyd King, Harold R.R. 2, to Ronald Keith Whiteman, son of Mr. and Mrs. Frank Whiteman, Stirling.

Tall standards of white gladioli and yellow shasta mums with fern provided a beautiful setting for the ceremony.

Mrs. Harry Brown played the traditional wedding music and Miss Helen Morrow, soloist, sang "The Wedding Prayer" before the ceremony, "The Lord's Prayer" during the ceremony, and "Because" during the signing of the register.

Given in marriage by her father, the bride was radiant in a gown of mauve tulle, with bodice of alcon lace, scalloped neckline, long lily point sleeves and chapel train. Her bridal veil of French silk illusion was held in place by a pearl crown head-dress and she carried a cascade of blush pink roses and stephanotis.

Miss Marjorie McArthur, of Stirling, was maid of honour in tropic water pure silk organza, with softly draped bodice and full skirt, with matching head-dress and accessories. Miss Barbara Callow, of Ameliasburg, as junior bridesmaid, and Miss Mildred Morton, Harold, and Miss Marlene

Whiteman, sister of the groom, as bridesmaids, wore identical dresses in maize. Little Miss Debbie Tryon, of Belleville, gowned in white silk organza, was flower girl.

The groomsmen were Robert Philip, Stirling, and the ushers were Arthur Wells, Peterborough; Don Whiteman, Stirling; and Murray Whiteman, Belleville, brothers of the groom.

The reception was held in the I.O.O.F. Hall, with the bride's mother receiving the guests in a gown of pure silk organza over mauve print, mauve hat and beige accessories. Her corsage was of white carnations. The groom's mother wore mauve printed silk with matching accessories and corsage of white carnations.

## Newly-Weds Honoured

On Saturday evening, May 6th, the home of Mr. and Mrs. Walter Warren, Stirling R.R. 1, was filled with friends and neighbours who came to honour the newly-weds, Mr. and Mrs. Allan Warren and Mrs. Brian Hare.

The two bridal couples were given seats of honour and Rev. W. G. Fletcher was master of ceremonies.

In his opening remarks some words of advice were given, followed by assembly singing with Mrs. Wm. Heath as soloist. Readings were given by Mrs. Harry Heath, Mrs. Leslie Thompson and Mrs. Donald Heath.

Followed by a duet by Misses Margaret Mulhern and Judy Reid, accompanied by Mrs. J. Mulhern. Readings were given by Mrs. Marney Johnston and Mrs. Flossie Laycock.

## St. Paul's W.M.S.

Piano music played by Mrs. David provided the introduction for the May meeting of St. Paul's Women's Missionary Society on Tuesday afternoon.

The meeting was under the direction of the group for Supply Work with Mrs. J. B. Thompson leading. There was an excellent display of finished work: two piece quilts, three dozen diapers, sixteen pairs of home knitted socks, six pairs mitts, two pair pyjamas, infant's knitted bonnet and booties, two pair adult pyjamas, approximately twenty-five yards new material, and other articles too numerous to mention.

To the question, "What Is Supply Work?" the answer is our effort to alleviate suffering through lack of the things which are considered the daily necessities of life. A need for blankets was stressed. People who have no houses have no beds, but if they have a blanket they can roll up in it and lie on the ground. Discarded nylons are requested. They are ravished by the Korean war widows as a home industry. A bale will be packed May 30th. Good used clothing will be welcome and new clothing for infants and children. Bales are needed at all times of the year.

Mrs. Martin gave a talk on the hymn "Rock of Ages," connecting it with Isaiah 22: 2-3.

An acrostic from the book of Ezra was given by Mrs. M. Bell, who gave some keen comments on our way of life. O — for optimism, let us make the most of our enjoyments and pack away our troubles. A new translation of Psalm 23, I shall not want rest, drink, forgiveness, guidance, companionship, comfort, food, joy, I shall not want anything, my cup runneth over, was read.

A letter was read from Miss Muriel Stephenson who spoke here on her first furlough. She told of holding night classes since most of the natives work in the fields in the day time.

Mrs. Eggleton introduced a new book by Dr. Ida Scudder who served fifty years as a medical missionary in India.

The group in charge served coffee and fruit bread and were tendered a "thank you" from all present.

## 1961 Plowing Match To Be Largest Yet

The 1961 International Plowing Match and Farm Machinery Demonstration, scheduled to take place at Belleville, October 4th to 7th, gives promise at this early date of being the largest on record.

### Do You Remember?

TWENTY-FIVE YEARS AGO

ISSUE MAY 21st, 1936

After months of planning by members of St. John's Church, work was finally started this week on building a new Parish Hall.

Miss Emma Allen graduated as a nurse at Belleville General Hospital. A number of relatives and friends from here attended the graduation exercises on Friday evening last.

Mrs. J. McC. Potts was elected President of the Ladies' Lawn Bowling Club at the organization meeting on Tuesday evening. Other officers chosen were Mrs. E. A. Carleton, 1st Vice-President; Mrs. E. Munro, Secretary, and Mrs. W. J. Whitty, Treasurer.

On Tuesday afternoon this district was visited by a hail storm, accompanied by high winds and a sudden drop in temperature.

#### Local and Personal

Mrs. J. E. Yorke, Corbyville, is visiting at the home of her daughter, Mrs. Duncan Montgomery.

J. L. Fanning, Rochester, N.Y., is spending a week visiting his nephew, Harry Fanning.

Mrs. A. D. McIntosh and sons George and Joe, Toronto, were weekend guests at the home of Mr. and Mrs. Sheldon McIntosh.

#### West Huntingdon

1936 will surely long be remembered by the many thrills it is giving us. First one of the coldest winters and then the hottest spring in years. When there was such an abundant growth that everyone marvelled that grass could grow so fast — then almost without warning one of the most severe frosts that could be imagined.

#### Bonarlaw

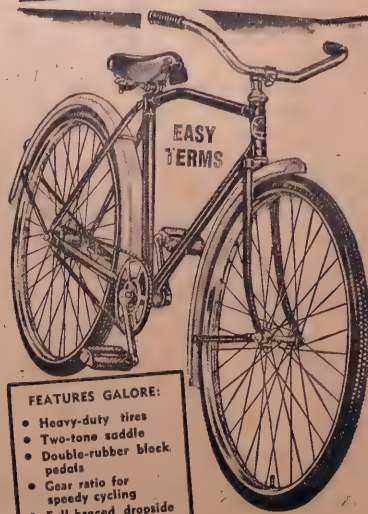

Chas. Gordanier and Merton Baker left Tuesday for Sudbury where they have secured positions.

Mr. and Mrs. Cameron Craig, of Fenelon Falls, were weekend visitors at the home of Mr. and Mrs. A. H. Reid.

### Cooking Comments

To give biscuits or rolls an attractive glaze, brush them with slightly beaten egg white, yolk, or whole egg just before baking, suggests the Food and Nutrition Department, Macdonald Institute, Guelph.

Over Two Thousand  
Attend Fireworks  
Display Monday

A crowd estimated to number over 2,000 witnessed a display of aerial fireworks at the local Fair Grounds last Monday evening. The display was arranged under the auspices of the Stirling Branch, No. 228, Canadian Legion, who conducted a public campaign to raise the required finances.

Vehicles began streaming into the grounds early in the evening and it was reported that some 500 vehicles were parked on the grounds during the actual display. Legion members directed traffic and assisted in parking the cars in an orderly fashion. Motorists were most co-operative and patient with the result that no mishaps were reported and the grounds were cleared in a matter of twenty minutes after the event concluded.

Refreshment services were provided by local Girl Guides and Boy Scouts. Both groups reported generous support from the public, despite occasional showers.

Junior Band  
In Attendance

Prior to the fireworks display the Stirling-Rawdon Junior Band, under the baton of Maurice Bell, entertained the large gathering with various selections.

St. John's Ladies  
Play Hosts

On Tuesday afternoon, May 23rd, the ladies of St. John's Anglican Church were hostesses to the ladies of St. Andrew's Presbyterian, St. Paul's, River Valley and Eggleton United Churches.

The meeting opened with quiet music played by Mrs. Harold West. Mrs. G. Carlisle read a poem as follows:

Lord, make me strong enough to bear  
My little round of anxious care.

The day returns, for this I pray;  
Sufficient wisdom for the day,  
Although I may not walk with kings,  
Let me be big in little things.

Mrs. Carlisle followed with prayer. The Scripture lesson was read by Mrs. Wm. McMullen with comment by Mrs. C. Fitchett. A very appropriate solo, "Just For Today," was sung very effectively by Mrs. D. Rogers.

Mrs. G. Noble read a letter from the Woman's Inter-Church Council of Canada commending the type of meeting and acknowledging the offering from the previous one.

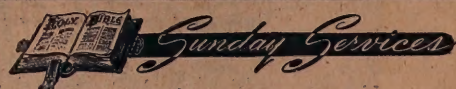

The offering was gathered and dedicated by Mrs. B. Reid. Readings were given by Mrs. Ernest Carr and Mrs. V. Richardson and were in keeping with the theme of the meeting.

The speaker of the afternoon was Miss Newman, of Kingston, and her subject was "Prayer."

Following are a few highlights from the various speakers:

I will try to live through this day only, and not tackle my whole life problem at once. I can do something for twelve hours that would appall me if I felt that I had to keep it up for a lifetime. Just for today I will adjust myself to what is, and not try to adjust everything to my own desires. Just for today I will be agreeable. I will look as well as I can, dress becomingly, talk low, act courteously, criticize not a bit, not find fault with anything and not try to improve or regulate anybody but myself. Just for today I will not be afraid to enjoy what is beautiful, and to believe that as I give to the world, so the world gives back to me.

Mrs. P. J. Hommersen expressed the thanks of the guests to the St. John's ladies and to all who took part in the programme. Mrs. Carlisle pronounced the benediction and a social half hour including tea and cookies was enjoyed.

## Stirling W.I. Annual Meeting

(Continued From Page One)

to Hastings County Historical Society, Belleville, with Mrs. R. Williams being the convener from Stirling W.I. for this society.

Home Economist, Miss Julia Lane, extended an invitation to Stirling W.I. to attend the 4-H Achievement Day on "Dressing Up Homegrown Vegetables." This will be held in the Stirling Community Hall on May 27th, commencing for the public at 11.15 p.m.

The Home Economics Courses were discussed from the various topics received from the Department in book form. Stirling Branch decided on "Aid to Effective Speaking" as their choice for Home Economics Extension Service. Non-members will be invited to join in this service course.

Mrs. M. Williams is Stirling's representative on the District Nominating Committee for new officers for the District for 1961-62. These names will be presented to the delegates for voting at the District Annual being held at Bayside on May 31st.

The continuation of the crest service in the News-Argus was voted for the new year.

Mrs. C. Gay was appointed voting delegate at the District Annual with the President, Mrs. B. Reid and District Director Mrs. M. Williams.

Mrs. West reported the sale's contents for the new year, being sent out in May to the Scott Mission, Toronto, valued at \$152.00. The Stirling W.I. is very grateful to one and all for their contributions towards this worthy cause. Each one's offering is needed.

Mrs. E. Foster will be in charge of choosing a suitable pattern for a fancy quilt top for which the ladies will each make two blocks during the summer months. This will be in readiness to quilt and sell during the fall or winter. The Pennies for Friendship and monthly collection were gathered.

Mrs. Aythart had on display an all- linen towel on which were inscribed named countries representing the Associated Women of the World.

Mrs. C. Gay invited the executive to her home for planning and compiling the programmes for the year.

The President announced that the June meeting will be at her home with an attractive feature being a White Elephant Sale, as part of the programme. Mrs. Williams and Mrs. Gay will be assisting.

Transportation was arranged for the members to attend the District Annual May 31st at Bayside.

The business closed with the repeating of the Mary Stewart Collect and singing the Queen.

### Programme

The programme featured honours

to mother. A beautiful bouquet of 18 red and white carnations was the centre of attraction, being a gift from one of the member's daughter.

Mrs. Reid gave a reading on "My Mother-In-Law."

Isn't it time that they sang of the heart of her,

Brim full of love and tenderness too?

When will folks cease saying things that are cruel of her?

When will they give her the praises long due?

Whom do they turn to when sickness comes to them?

Who is the nurse who will toil without pay?

When they need her, is ne'er known to frown on them.

Who minds the children when they are away?

Mrs. W. H. Cooke, a great grandmother was present at the meeting.

Mrs. W. C. West gave a reading, "My Mother's Apron."

I used to say to mother

When friends dropped in for tea:

O mother, take your apron off

And don't embarrass me.

But I have need of it just now,

There's work for me to do.

My mother's apron symbol was of service — for her king.

Now in my treasure chest it lies a sacred, precious thing,

My mother's apron.

Mrs. L. Bronson gave a repeated address which was given April 22nd, 1937 in honour of the W.I. grandmothers and chartered members — they who laid the foundation for the promotion of a better world.

Let me grow lovely, growing old

So many fine things to do,

Laces, and ivory and gold

And silks need not be new.

As there is healing in old trees,

Old streets a glamour hold.

Why not I, as well as these

Grow lovely, growing old.

Mrs. C. Gay gave a reading, "My Mother."

There was a place in childhood that

I remember well,

And there a voice of sweetest tone,

Bright fairy tales did tell.

And gentle words and fond embrace

Were given with joy to me

When I was in that happy place, upon

my mother's knee.

All joined in singing "The More We Get Together" and the repeating of the Lord's Prayer. A dainty lunch was served by the hostess and committee. Mrs. R. Williams moved a vote of thanks for same.

## Eggleton W.A. And W.M.S.

The May meeting was held on Thursday afternoon at the home of Mrs. Carl Bridges with 10 visitors, 10 members and 2 children in attendance.

Mrs. W. McMullen, the W.A. President, presided over a programme prepared by Mrs. Murney Kirkey and Mrs. Frank Smith, and opened the meeting with the call to worship and a hymn followed with prayer by the pastor, Mr. Dyson.

The Scripture Lesson from 9th chapter of St. Matthew, verses 18 to 31, was read by Mrs. Warren Harlow and the commentary on the lesson was given by Mrs. Keith Johnson. The offering of \$6.10 was gathered and dedicated with a prayer by the leader. Mrs. McMullen spoke briefly and welcomed the visitors present.

Invitations were received to attend a joint meeting at St. John's, Stirling, St. Andrew's Lilac Tea and Bazaar, Stirling; a thank-you note from Mrs. Johnson; a letter from the Presbyterian Literature Secretary in regards to ordering the two volumes of the Annual Report of the Woman's Missionary Society — "Outreach" and "Facts and Figures." These will be ready for distribution in August.

The President reminded the members of the Annual meeting of the W.A. in Marmora on the 25th of May.

Mrs. Dyson very kindly invited the members from Eggleton to come to the parsonage at Thomasburg for the June meeting. Mrs. Carl Bridges was appointed to prepare the programme. This will be the annual W.A. meeting when fees are paid.

Mrs. Kirkey gave an interesting reading, "How the Bible is Read" and following this Mrs. Maurice Clancy contributed a solo, "Mother's Prayers" with Mrs. M. Martin playing her accompaniment on the piano.

Mrs. Bruce Stapley presented the chapter from the study book, describing the work being done by christian workers in helping the needy in refugee camps. Two poems, "Mother's Work" and "The Older Mothers," were read by Mrs. Forde Stapley. Mrs. McMullen thanked the hostess, programme conveners and dismissed the meeting with prayer.

### 50th Anniversary

#### Eggleton W.M.S.

This month marks the 50th year since Eggleton W.M.S. was organized at Eggleton Church — May 19th, 1911 by Mrs. H. K. Denyes, of Zion Hill.

Mrs. McMullen read the names of the first officers as follows: President, Mrs. Geo. Cooke; Vice-President, Mrs. Arthur Andrews; Corresponding Secretary, Mrs. William Fitchett; Recording Secretary, Mrs. Geo. Cooke; Treasurer, Mrs. Edward Bennett. The list of charter members were Mrs. Clarke, Mrs. Andrews, Mrs. Bennett,

Mrs. Cooke, Mrs. Fitchett, Mrs. Barker, Mrs. W. Keegan, Mrs. Frank Stapley, Mrs. James Stapley, Mrs. Wm. McMullen, Mrs. Samuel Stapley and Mrs. Albert Eggleton.

Mrs. Lansing, of Stirling, spoke briefly, paying tribute to all the faithful ones who had carried on the work of the W.M.S. here over the past fifty years.

All were pleased that Mrs. Frank Stapley, of Stirling, one of the charter members, was able to be present at this meeting on Thursday and on behalf of the W.M.S. she was presented by Mrs. Harlow with a beautiful African violet.

### Anniversary Cake

On a silver tray the beautiful birthday cake with "W.M.S. 50th Anniversary" written on it, and a row of pink candles all around the edge, was carried in by Mrs. Harlow. The candles were lighted by Mrs. Oliver Stapley and Mrs. S. Danford and extinguished by Mrs. L. Thompson and Mrs. S. Prest.

In the dining room the table was appointed with white damask cloth and centred with a large glass bowl of golden daffodils. At one end Mrs. Frank Stapley cut and served the anniversary cake, while at the other end of the table was a silver tea service where Mrs. Clarence Fitchett poured tea.

Mrs. Bridges served dainty refreshments of a variety of fancy cookies, berry and taffy tarts, anniversary cake and ice cream.

At the close Mrs. Oliver Stapley read a lovely poem which she had received several years back from Mrs. A. Andrews, while Mrs. Andrews was seriously ill in hospital. This poem, composed and written by Mrs. Andrews, described landmarks and memories of her home community here.

### NEWS FOR THE BUSY FARMER

#### NEW HOG SELLING SYSTEM NOW IN FULL OPERATION

With remarkable smoothness and speed, after a brief period of adjustment, 24,361 hogs were sold last week through the new electronic system of the Ontario Hog Producers' Co-Operative.

Combined with telephone selling in the case of the smaller packers who can't afford the cost of teletype installations, the new communications system transmits market offerings in a matter of seconds, allows the packers to record their bids at the OHPC control centre and eliminates the possibility of identical bids. No prospective buyer knows what his competitors are bidding, and the highest recorded bid automatically locks the circuit.

During the first week of operation, hogs were sold from 45 OHPC terminals across Ontario. Prices ranged from a low of \$25.05 to a high of \$27.10. All sales, including those made by telephone are recorded on a master sheet for future reference.

It all started when a committee of the Ontario Hog Producers' Marketing Board, composed of Messrs. Clare Curtin, of Lindsay; Lance Dickieson, of Ariss, and Ben Steers, of Bradford, completed a study of various methods of sale and recommended the adoption of a teletype system which would operate in such a way as to preserve the element of personal salesmanship and the right of the marketing agency to cancel any sale if the bidder could not pay for his purchase or was not in a position to slaughter the animals promptly. This proposal was approved by the local board and the Ontario Farm Products Marketing Board gave the green light on February 28th.

"So far so good," Eldred Aiken, Chairman of the Hog Board, said.

"Technically speaking, the system evolved by the Bell Telephone Co. seems quite efficient. It will be even more efficient when the bidders become thoroughly familiar with its operation. Prices are good at the present time. We can only hope they won't fall off when the packers have mastered the new bidding technique. We're keeping our eyes open."

#### Why You Change Tractor Oil

It's a fact that the darkening colour of your tractor engine oil is not a reliable guide that it's time for an oil change. So says G. S. Moggach, Ontario Department of Agriculture engineering extension specialist.

"Most tractor engines today use the detergent or heavy-duty type of motor oil. It'll be dirty looking the first time you look at your oil after an oil change," says Moggach, who works out of the Western Ontario Agricultural School at Ridgeway.

Detergent means "cleaning ability," he explains. This type of oil keeps dirt and other contaminants suspended in the oil so they will not settle out and form varnished and carbon deposits on piston skirts, upper ring grooves, valve stems, and other critical engine parts. That's why the colour of your oil can't be used as a guide for oil changes.

During normal operation an engine tends to accumulate deposits of various kinds, such as those resulting from oxidation, "blow-by," lead from the fuel, minute water particles and just plain dirt, says Moggach. The larger suspended particles are removed by the oil filter but those particles too small in size to be trapped by the filter will remain suspended in the circulating oil.

Naturally, more and more of these

fine deposits will accumulate and this oil loses its capacity to carry all the deposit or "garbage" being formed by the engine operation. When the oil becomes overloaded, this dirt collects in vital engine parts, causing excessive wear and poor performance. The only way to remove these harmful deposits is by changing the crankcase oil, he explains.

For this reason, definite motor oil change periods should be observed, not because the oil has no further lubricating value, but because of the accumulation of harmful deposits in suspension in the oil.

It follows, says the engineer, that when an oil change is made, the oil filter should be examined and, if dirty, the filter element should also be changed. If periodic oil changes and oil filter changes are neglected the filter soon plugs up. Then the oil pump screen begins to act as a filter,

and when this happens the oil flow to the oil pump is reduced, causing the bearings to burn out because of lack of lubrication.

If the oil pressure gauge is not up to normal or is slow to respond when the engine is started, it is a warning that the oil pump screen is partially plugged, he cautions.

Manufacturers recommend crankcase drain periods to meet normal conditions under which your tractor operates. They also recommend more frequent oil changes when the tractor is working under less favourable conditions, such as stop-start low-temperature operation, or continuous heavy loads and high temperature operation.

### H.S. Pupils Enjoy Trip To Quinte Plant

(By Donna Vardy)

On May 24th the pupils of Grade 9C along with our agricultural teacher, Mr. Bakker and the Board member, Mrs. R. Hatton, enjoyed an educational trip to the Quinte Milk Products Limited plant at Wellington.

We left the High School at 9.15 Wednesday morning on Mr. Ray Shortt's school bus and arrived at the plant at about 10.15 a.m.

We encountered many exciting machines, helpful workers and useful milk products. We learned how the milk was received, how the cans were

washed, scalded and sterilized, how the cream is pasteurized, shipped and made into ice cream and Dairy Queen products. We saw how milk powder, albumen, milk-sugar and casein is made. Before leaving the plant each visitor was given a free sample of the Dairy Queen ice cream.

Later in the small town of Wellington we bought refreshments and went to the park at Lake Ontario and ate our lunch. On our way home we went by Trenton and saw the train wreck. We arrived at the school at 1.25 p.m. ready and eager for a full afternoon of work.

On behalf of the Grade 9C Students I would like to extend our appreciation to the School Board, to Mrs. Hatton and Mr. Bakker for the trip. We learned a lot and also enjoyed ourselves.

### Stirling 4-H Calf Club

The May meeting of the Stirling 4-H Calf Club was held Tuesday night with twenty-eight in attendance.

The members first met at the farm of Mr. Harold Dettlor, where they were given pointers on judging swine by Mr. G. Patterson. Later they judged and gave reasons on a class of sows.

The Club then proceeded to the farm of Mr. Bill Slater, who along with Mr. Patterson, coached the members on the judging of shorthorn cattle. The club then placed on a class of the same.

Lunch was served by the Slaters, who were thanked for their hospitality.

The next meeting will be held Wednesday, July 4th.

### Five Pin Bowling

On Monday, May 15th Keith Johnson's "Jokers" had a total pinfall of 3055 for three games, which was nearly 500 pins more than the other three teams. The other scores were real close with Ralph Scea's "Blue Angels" having 2578, Art MacConnell's "Pinheads" 2550 and Ray Rose's "White Owls" 2546.

Doug McCrory had the high single of 310 and also the high triple of 708.
